Buckle Down Publishing	Buckle Down on Science, Level 3-4 Student Workbook & Practice Test	Buckle Down Publishing Co.	2004	4 (3-4)		R 87%
	Key Features: Comprehensive science review with instruction, examples, experiments, investigations, practice items, and test-taking tips to help students prepare for science tests. Easy-to-use standards-based workbook with Testwise Strategies embedded throughout, useful for both student review and remediation. Practice tests that are matched to science standards and workbook reviews, and provide useful feedback on instruction and student progress in mastering science content.					
	Buckle Down on Science, Level 3-4, Teacher's Guide					
	Buckle Down on Science, Level 3-4, Additional Practice Tests					
Classroom Connect	Connected Tech	Surr; Cohen	2003	4 (K-8)		R
	Key Features: Connected Tech offers more than 450 standards based lessons across the curriculum in math, science, social studies, and language arts/communication. There are 142 K-2 resources; 151 grade 3-5 resources; and 171 grade 6-8 resources. Lessons are correlated to ISTE NETS for students with correlations available online and are easily integrated into regular classroom curricula. Connected Tech helps teachers organize students into groups based on learning style, providing differentiated instruction for students with learning challenges and offering extensions for gifted and talented students. Our resources also offer multimedia and Spanish language support that accommodate diverse learning styles. Connected Tech uses real-world applications in real time allowing students to learn the application while completing a core curriculum assignment. Connected Tech teaches skills for AppleWorks, Word, Excel, Power Point, Access, Inspiration, Kidspiration, HyperStudio, KidPix, FileMakerPro, and iMovie.					
Delta Education LLC	FOSS Earth Materials Module	Lowery	2005	4		R 50%
	Note: FOSS Earth Materials, Ideals & Inventions, Magnetism & Electricity, and Structures of Life modules need to be purchased together as a set. Key Features: The FOSS Program is a complete K-6 modular science program of instruction and assessment dedicated to the proposition that elementary students learn science best by doing science. The program is a carefully planned and coordinated science curriculum. FOSS modules begin with hands-on investigations, and then move students toward abstract ideas related to those investigations using interactive simulations found at (www.fossweb.com), models, and readings. Its modular design provides instructional versatility for many different school settings. The FOSS Program has three important goals: 1. Scientific Literacy; 2. Instructional Efficiency and 3. Prepares students with the knowledge and thinking skills to manage the 21 st century. The FOSS Program is based on the theory that students advance through a predictable sequence of stages of cognitive development over time

	DSM Solar System Module	Delta	2003	4 (3-4)		R 31%
	<p>Key Features: The DSM unit offers quality, hands-on activity-based science for students in grades k-6. Whether used to supplement and/or fill gaps of an existing science curriculum, or as a stand-alone program, the activities in DSM successfully engage students in inquiry-based learning. These comprehensive kits are user-friendly for all teachers, meeting the needs of both those who are at ease teaching science and those who appreciate more support. The DSM program combines hands-on active learning with a powerful combination of science and reading through the <i>Delta Science Readers</i>—non-fiction student books. The Readers provide additional science background, content and vocabulary for the students. DSM Program Components: In addition to the kit of materials needed to conduct hands-on investigations, each DSM unit includes: a Teacher Guide, Equipment Kit, and <i>Delta Science Readers</i>. Unique Features of a DSM Teacher Guide: A Module Overview, Overview Chart for Hands-On Activities, Hands-on Activities, Delta Science Reader, Teacher Resources. A Copymasters folio provides the duplication masters for recording student info from the activities and assessment.</p>

Encyclopedia Britannica, Inc.	Encyclopedia Britannica Online School Edition	Encyclopedia Britannica, Inc.	2004	4 (K-12)		R
	Key Features: Four encyclopedias that are geared for all levels of reading with 123,000 articles and 27,000 images and video clips including coverage of Science topics. Plus, the Britannica Internet Guide offers access to the best sites available on the Web, chosen based on their educational value with an emphasis on curriculum-based content. Learning Materials and Teacher Resources that include more than 450 interactive guides to incorporate core content areas into the classroom. Science topics include Biology, Earth and Space Science, Life Sciences, and Physics. Core concept reviews, student activities, images, and Web links are included. Other features include a World Atlas with detailed maps of more than 200 countries, all U.S. states, and all Canadian provinces, a student dictionary and thesaurus, interactive historical timelines, and videos and multimedia. Journals and magazines provide up-to-date information about classroom concepts and current events.

JASON Foundation for Education	JASON Expedition: Disappearing Wetlands	JASON Foundation for Education	Pending	4		R
	Key Features: Expedition-based, JASON builds its annual curriculum around the work of a scientists at a research site. Curriculum materials model the scientists' work so that students are conducting the same science in classrooms, as are the expedition scientists. Content addresses the hydrologic cycle, plate tectonics, oceans, energy cycle, food webs, organisms, ecosystems, and human impact on the environment. Curriculum materials include: Print curriculum with units and activities that can be accomplished in classrooms, laboratories, and in the field. Curriculum includes all materials needed for teachers to lead and support student inquiry. Curriculum supplemented by video and web delivered content including digital laboratories.

NGSD, LLC (National Geographic)	Reading Expeditions Science Single-copy Set	National Geographic	2002-2004	4 (3-8)		R
	Key Features: These nonfiction books are correlated to national science standards. They build/reinforce core science content and develop nonfiction literacy skills. Engaging text and powerful photographs make science content relevant and meaningful. Nonfiction text features such as captions, labels, headings, subheadings, Specialized vocabulary, glossaries, indexes, and more help students learn to navigate informational text. Unique book features show real-world science in action, develop inquiry skills and provide opportunities for research and investigation.					
	Reading and Writing Workshop	National Geographic	2004	4 (3-8)		R
	Key Features: Developed in collaboration with key experts in the field of education. Dr. P. David Pearson, Dean of the Graduate School of Education at the University of California, Berkeley, and Stephanie Harvey, author of Strategies That Work. Provides teachers with the tools to teach essential research-based comprehension strategies and expository writing. Connects reading and writing using authentic texts. Science and Social Studies texts to provide students opportunities to learn to comprehend and write informational texts.					
	Astronomy GeoKit	National Geographic	1997	4 (4-9)		R
	Key Features: All-in-one curriculum modules provide in-depth coverage of course standards based science content. Inquiry based activities and resources involve students in ongoing investigations/explorations and the scientific process. Videos, handouts, overhead transparencies, hands-on activities, and National Geographic readings provide rich resources for engaging science lessons.					
	Cells & Microorganisms GeoKit	National Geographic	1998	4 (4-9)		R
